Our school opened its doors in January 2013 with only 19 learners. Despite all odds we decided to continue. Today we have 117 learners, 16 teachers and 4 supporting staff members. The ultimate goal of our school is to develop every learner to his/her full potential. In order to do this we need to assist the learner to be able to read and write properly. This is a big challenge in our educational system. We have identified the need and have to make provision to overcome that. As board members we have decided to look for VOLUNTEERS to help with this task:

Any volunteer at our school must be:
+ above the age of 23
+ dedicated towards the learners and their course
+ able to work independently
+ creative in their approach towards the individual need of the learners
+ positive in their approach to help the learner to believe “he/she can...”
+ motivated to make a change in the learner’s approach to school
+ willing to participate in school activities
We want our volunteers to be role models to our learners.

We wish you all the success in your studies and practicals.
Be blessed

Vera Tune
Director
